

**REMARKS**

The presently presented claim set is based on the claims of International Patent Application No. PCT/SE2004/001049 filed on June 30, 2004.

**Amendments to the Specification**

Applicants herein amend the specification to insert a cross reference to the earlier filed International Patent Application. Applicants submit that no new matter is added by this amendment.

**Amendments to the Claims**

Following the entry of the Preliminary Amendment, claims 1-44, 47, 49 and 51-57 remain in the application for consideration. Claims 45, 46, 48 and 50 are herein canceled without prejudice. Applicants herein amend claims 1-44, 47, 49 and 51-57 to remove multiple claim dependencies, and to place the claims in better form for U.S. practice. No new matter is added herewith.

Please calculate the filing fee based on the above amended claims.
